

Dear Innovations Community,

We are pleased to announce that Ms. Pam Pedersen has been appointed the new administrator for Innovations Early College High School. Ms. Pedersen brings a wealth of experience with her to this position and is committed to the ideals and philosophy that make Innovations unique. She will begin her position next Monday so that she can work side by side with Mrs. Radmall during this time of transition.

Mrs. Radmall's last day here at Innovations will be April 27th. We are excited for her as she moves to Colorado to begin new adventures with her family. Mrs. Radmall has been an excellent administrator in every way and as a district, we are grateful for her dedication and commitment.

We want to thank the hiring committee for their long hours and for the professional way in which this process was handled by everyone. This committee was committed to finding an administrator who would build on the legacy of Innovations and they did that. The questions asked and decisions made were all based on the input that you shared with them. They represented each of you very well.

We would like to invite you to a "Meet and Greet" for parents and guardians on April 25th from 7:30-9:00 AM here at Innovations. Please join us to thank Mrs. Radmall for her hard work, and welcome Ms. Pedersen to the Innovations family. A light breakfast will be served.

Thank you,
Rebecca Pittam
Highland Network Director
Salt Lake City School District

April 13, 2018

Dear faculty, staff, parents, and students of Innovations,

My name is Pam Pedersen and I am honored to introduce myself as the new interim administrator for Innovations Early College High School. I will be at Innovations beginning next Monday to begin working with Mrs. Radmall before she moves to Colorado. I have also been named as your new administrator effective July 1 and I am thrilled to be joining you.

Learning is important to me and I have spent 20 years in the Salt Lake City School District working to instill that same love of learning in students. I have been a special education teacher, a district grant writer for four years, and an assistant principal for two schools, Northwest Middle School and West High School, for the last 10 years. I have been involved in many programs that help students find success as they progress through their education. I've also been interested in the mission and vision of Innovations since its inception. I am very excited to be part of such a great organization and learning community!

I hope to get to know all of you soon and plan to spend quite a bit of time meeting everyone and giving you an opportunity to share your ideas, suggestions, concerns and questions. I want to learn what is important to you, and what you feel Innovations needs as we move forward. I am excited to hear from each of you and I'm anxious to learn how I can be responsive to your needs. I'm looking forward to a great adventure together.

Sincerely,

Pam Pedersen
